

ONLINE SESSION BRITISH CHAMBER

5G POWERING TODAY AND TOMORROW

 | 26th May 2021 | 10.30 am (CET) | Microsoft Teams | English

Connectivity is growing daily, thanks largely to companies and innovators leading the way to develop new 5G technologies. We recognise the importance of these advancements, and it's time to make them known. Through this event, we will unveil the latest 5G advancements taking place in the UK and Spain, exploring the impacts and benefits these will have for the future, making digitalization and modernization accessible and universal.
